

# BROOKLYN NEWS.

## CLERK BOOTH'S JOKE. M'KANE JUROR BOYCOTTED.

De Wolfe Submitted a List of Men to Be Discharged.

But Booth Retained the "Victims" and "Fired" the Others.

"Assessments Don't Go" in the Park Department Now.

While the wave of reform, which is sweeping the Brooklyn politicians and sincere office-holders out of the various departments, is a serious matter to those who are forced to swell the great army of the unemployed, it nevertheless is attended with many ludicrous incidents. The most recent of these happened only a few days ago in the Park Department and at the expense of about eighty laborers, whose heads were dropped into the Commissioner's official basket.

Just previous to election day, when all the office-holders were being assessed to help defray the Democratic machine campaign expenses, there was considerable grumbling among the laborers in the Park Department. There were 100 laborers in the Department, employed at \$1.50 and \$1.75 a day, and they were told that unless Schieren was defeated they would lose their positions. They all refused to pay the assessment, but finally the majority went to the captain's office and "fired" the others. The "firing" was done by the Commissioner's official basket.

When Park Commissioner Squire took charge Feb. 1, he created a new office by appointing William A. Booth laborer and property clerk at a salary of \$2.00 a year with power to dismiss and appoint employees. Previously this power had been in the hands of John De Wolfe, Superintendent of Prospect Park.

Mr. Booth decided several days ago to reduce the force of laborers, and he requested Mr. De Wolfe to submit a list of men whose services could be dispensed with. Mr. De Wolfe submitted a list of twenty men, and presented it to Mr. Booth.

"These twenty men I would suggest be dismissed," said he, pointing to the list of men who had refused to pay the assessment. "I would suggest keeping all the others until Spring, when we will need them." Mr. Booth, however, had decided to keep the twenty men, and he told Mr. De Wolfe that he would keep them.

"Why not keep the hundred?" asked Mr. Booth. "Because," said Mr. De Wolfe, "these twenty are not necessary just now." Mr. Booth, however, decided to keep the twenty men, and he told Mr. De Wolfe that he would keep them.

It is said that Mr. De Wolfe made his list from information obtained from the Commissioner's official basket. Those who remained had been black-balled for refusing to agree to the campaign assessment.

## Merchant Bulger Loses the Trade of the Czar's Sympathizers.

Dealer Hurler Also Has Trouble in Disposing of His Pickles.

There was little to be learned to-day in Brooklyn concerning the plans of John Y. McKane's lawyers to keep him out of Sing Sing prison.

Lawyer George W. Roderick, the only one of McKane's counsel who will not talk to reporters, is also the only one who professes to know something which will disqualify any of the McKane jurors.

Mr. Roderick, however, refuses to state what the ground is on which he hopes to have the verdict set aside. There are a number of rumors flying about concerning the reasons for the supposed juror's disqualification. They range from the alleged insanity of the man to his having been convicted of a felony at some time in his life.

The juror's identity, however, still remains a mystery. The McKane jury are having a very unpleasant time of it with their neighbors by reason of the sympathy expressed for McKane by many Brooklynites, who in two instances beat at an "Evening World" reporter to-day.

Mr. Bulger's assistant said that his employer had been hauled over the coals for several reasons, and that some of his customers had gone so far as to withdraw their trade, which is principally among boarding-house keepers in Brooklyn.

## That Is Simply What the Shore Inspectorship Provides.

Inspectorship Provides.

Ferguson Charges \$13,860 a Year for a Steam Launch.

Uncle Sam Pays \$8,000 for a Craft Six Times as Large.

Sad to relate, New Utrecht's eminent Pook-Bah, the "Honorable" Cornelius Ferguson, is soon to lose one of his sixteen or seventeen soft snaps. What makes it particularly distressing is the fact that the snap he is going to lose is the softest snap of all.

The State Legislature will undoubtedly remove him as State Shore Inspector, and abolish the office as being a useless and extravagant waste of the people's money.

The bill introduced by Representative Wray, of Brooklyn, is now before the Committee on Commerce and Navigation at Albany. Ferguson sent some of his friends to the State capital to lobby against the repeal of the measure, which gives \$2,000 a year to himself and friends, but the signs are that all their efforts will prove unavailing.

The United States Government, through Lieut. Delahanty, Supervisor of New York Harbor, is looking for a steam launch for the State Shore Inspector. The launch is to be a small one, and is to be used for the purpose of inspecting the harbor.

Here is a comparative estimate, showing the size of the launch the State Shore Inspector is looking for, and the size of the launch the State Shore Inspector is looking for.

## HERE'S PILOT BOAT NO. 20.

One of the Finest of the Fleet and Christened the Joseph Pulitzer.

There slid off the ways in Moses Adams's ship-yard, at Essex, Mass., yesterday a triumph of the modern art of ship-building, in the shape of the new pilot boat No. 20.

THE JOSEPH PULITZ. R. PILOT BOAT NO. 20.

The Joseph Pulitzer's canvas will include a mainmast, foremast, fore-stay, and a topmast. It will take about a week to put the finishing touches on the new craft, when she will be given a 100-mile trial trip before she puts to sea for business.

The new boat is owned by Capt. Jacob M. Heath, Pilot John Bonnyne, Thomas Marks, Frederick Ryerson, Martin Ryerson and Jacob P. Lockman. Her length is 87 feet and her breadth of beam 22 feet. The depth of hold is 9 feet 3 inches. The length on the water line is 82 feet, and the draught of water 11 feet. These dimensions give her not only grace and plenty of speed, but according to the best marine authorities, she will ride a mountainous sea with ease and freedom in a howling gale.

The interior is finished in hard wood, a luxurious style, with every convenience. A tank with a capacity for 10,000 gallons of water is an unusual feature.

The length on the water line is 82 feet, and the draught of water 11 feet. These dimensions give her not only grace and plenty of speed, but according to the best marine authorities, she will ride a mountainous sea with ease and freedom in a howling gale.

## WASHINGTON BUST UNVEILED.

Simple Ceremonies in the Mailing-Room of the Post-Office.

The anniversary of the birthday of George Washington was celebrated in the Post-Office at the unveiling of the bust of the Father of His Country. At 11 o'clock the clerk, letter-carriers and heads of the various departments gathered in the mailing-room, where the bust was unveiled.

The bust, which was unveiled, was a work of art, and was placed upon a platform, about fifteen feet high, at the south end of the mailing-room. The bust was made of a hard composition material. The sculptor is Wilson MacDonald.

## ANARCHIST SCARE ABROAD.

All Bearers of Parcels Subjected to Suspicion in Paris.

Bomb, with Fuse Attached, Found in the Post-Office at Tunis.

(By Associated Press.) LONDON, Feb. 22.—The correspondent of The Post at Paris, describing the public "anarchist" scare, says that a loud sound in any of the cafes or on the boulevards suffices to cause a general start.

A well-known artist of the name of Laveaux was arrested on suspicion of being an Anarchist. The only ground for this suspicion was the fact that he was carrying a parcel. The parcel proved to be an innocent paint box and the artist was liberated when he made an explanation. All bearers of parcels are now "scared with suspicion."

A despatch to The Times says that an Anarchist of the name of Rivoli has been arrested in Paris. The London police denounced him to the Paris police as a dangerous man, and informed them that he was carrying bombs, which he intended to use in blowing up the Chamber of Deputies.

M. Sauzet, a member of the Chamber, says that Rivoli applied to him for tickets of admission to the Chamber both on Monday and Tuesday. M. Sauzet was suspicious of the man, and refused to grant his request.

A despatch to The Chronicle from Vienna says that the Anarchist has been arrested in the Reichstag, which will enable the President, in case of an Anarchist outrage, to close the doors of the house automatically. Other precautions are being adopted by the authorities to protect the public buildings.

PARIS, Feb. 22.—A supposed bomb was found today in the Galerie Montaigne, Palais Royal. It was taken to the Municipal Laboratory for examination.

TUNIS, Feb. 22.—A bomb, with a fuse attached, was found today in the Post-Office. The bomb is supposed to have been placed there by foreign Anarchists.

PARLIAMENT TO DISSOLVE. Unionist Papers Say Election Agents Have Notice to That Effect.

(By Associated Press.) LONDON, Feb. 22.—Unionist election agents have received notice to prepare for a dissolution of Parliament within month.

It is also stated that Mr. Gladstone may be asked for election, which would give him a second term in the Gladstone candidate for Midlothian (Edinburghshire, the seat which Gladstone has represented in Parliament since April, 1880).

GUATEMALAN FINANCES. Another Report of a Suspended Payment on External Debt.

(By Associated Press.) LONDON, Feb. 22.—Advices received here from Guatemala announce the suspension of payment on the external debt of the Central American Republic mentioned in the London Standard of the 21st inst. in silver on its external debt.

LONDON, Feb. 22.—The news of Guatemala had suspended payment on its external debt, which was in silver, was received in a letter addressed to the banking firm of Messrs. Barclay & Co., by the Guatemalan Minister in Paris, Senor F. Cruz. The announcement was posted in Chapel Court, London, and caused a decline in Guatemalan bonds.

London Clergyman Missing. (By Associated Press.) LONDON, Feb. 22.—The Morning Post says that a clergyman well known in London, Mr. Williams of Clifton, has been missing since Feb. 10. It is asserted that he was in Paris and is not on board the steamer Berlin bound for New York.

Earl to See a Burlesque Dancer. (By Associated Press.) LONDON, Feb. 22.—The Morning Post says that a lawsuit is impending in which an Earl is the plaintiff, to recover value of jewelry which the Earl intrusted to a burlesque dancer. The jewelry is now in the hands of a usurer. No names are given.

Kaiser's Present to Bismarck. (By Associated Press.) BERLIN, Feb. 22.—The Emperor has presented Prince Bismarck with a series of sketches, made by himself, showing the different parts of the armor plate, the warships of the German navy and the navies of other nations.
